Remove these ads by becoming a member Contact Arkadium, the provider of these gamesTired of broken pencils, smudged eraser marks, and scribbles all over your word search puzzles? First, however, it's best to do a test print on plain paper to ensure everything looks good before printing on your specialty papers. Simply click on the "Page Layout" tab (or find it in the "File" menu) and find the "Orientation" option. But did you know that they have numerous intellectual benefits? Get 60 educational word searches for kids and you will have plenty to keep everyone entertained for hours. Before you create your puzzle, you might also want to highlight your word list and press Ctrl+C to keep a copy of it on your computer's clipboard. In the example, the letters are printed on the back of a double-sided sheet of patterned cardstock from EK Success. These instructions are for creating reverse block letters using Microsoft Word. They might not realize it, but word finds will encourage children to: Explore new worlds of knowledge. Most importantly, these puzzles are quietly entertaining! They can really come in handy during doctor visits, long trips in the car, or anytime you are hoping your child can sit still for a while. Children will love the topics and will be learning as they go. Use any of the Turtle Diary word searches to improve your child's cognitive functions and language skills. Most likely, you will want to increase the letter size so they are large enough for you to cut out by hand. For example, if the search focuses on occupations, students might learn about unfamiliar jobs such as a radiologist, butcher, or florist. You should see small circles around the box. This method lets you cut out letters using patterned paper or cardstock. Experiment with the settings below to find the best results for printing. The grids are medium sized and the words might be placed in any direction (vertically, horizontally or diagonally). (These shortcut commands work on Windows systems.) PLEASE NOTE: If you are concerned about inappropriate words in the randomized letters, be sure to proofread before handing out to students. Printing We have formatted the puzzle pages so they should print correctly on almost all home printers. You may print and distribute as many copies as you wish. Turtle Diary offers an incredible array of easy word search puzzles, all online and all completely free. Word Search Puzzles for Kids: 60 Fun Ways to Stretch Your Mind Word searches are irresistibly fun. They're the perfect boredom buster for long waits for car rides, especially because they provide a cognitive challenge, instead of another round of endless scrolling through social media. Themed words to find can include new vocabulary words. After cutting out the letter "S," you can see that it is the correct orientation and free of any printer lines once it's flipped over. Kids can play on any device that has an internet connection. Continue with all the letters and you're ready to decorate your scrapbook page. Words are hidden in all directions, overlaps are frequent, and the list of words to look for might be 20 or more. To begin, open a new Word document. Ludens You should now be able to see how the outline letters will look on your document. If you are convinced of the benefits you and your kids will be reaping with word search puzzles, you will want to peek inside this brain stretching printable book. The title "Moments" is used here as an example. Challenging Word Searches Aimed at fifth grade and up, these are basically as hard as our more adult word searches, but with subjects kids will especially enjoy. Ludens If you reverse the letters so the word is backward before printing, you will be able to print the title on the back of the paper. Word searches also help children increase their working memory and their brain processing speeds. Otherwise you'll have to re-type them. These options are under your browser's File menu. Like any puzzle, they are a great way to keep your brain active and develop problem solving skills. If that's the case, click "OK" once you are happy with your text. Improve spelling. It's easy to print the worksheet out so your kids can still work on it if you lose cell service along the way. The words might be backwards as well and the word list is between 15 and 20. We hope you love our word searches for kids and use them often. For specifics on where to find things, reference the "Help" section of your Word version. Create your own that includes related words such as 'ranger' and 'peak.' You'll have another fun activity for the drive and a chance to introduce unfamiliar vocabulary your kids might hear on the trip. You can change the font, select the perfect size of letters for your layout, and print reversed block letters onto the back of a coordinating paper to complete the look of any scrapbook page. Write something such as an "X" on your test paper before printing to find out which side your printer is actually printing on. Baseball Legends, Rivers of the World, Italian Food and much more await them. For kids, they are a great tool in language acquisition. The words are either vertically or horizontally placed (no diagonally placed or backwards words). Click on the "Insert" menu and choose

Word Art. Select the basic outlined letter style, which works perfectly for block letters that can be cut out by hand. Click and drag one circle in a corner to the box and the text. More Puzzles - We have lots more printables, and you may find something else you like in these categories: Harder Word Search Puzzles Crosswords for Kids Word Scrambles Cryptograms Easy Word Searches These would be good for beginners, maybe kindergarten to about second grade. Here you will find puzzles for children of all ages and some of the harder ones, even teens will enjoy. These puzzles have so many benefits, yet are simple and fun to solve. While you could use chipboard or sticker letters, those offer limited design options. Fret not! In Daily Word Search, your computer becomes the pencil AND the eraser. Ludens When you click on the outline style, a text box will open on your document page. You can even cut out the test letters and play with the layout on your page. The benefit of this is that when you cut out each letter, you won't have to worry about the printing lines showing because they are on the back of the paper. That way, if you need to come back and change settings, you can paste the words into the blank by pressing Ctrl+V. They offer a chance to practice spelling: children have to pay close attention to every letter in the word to ensure they're circling the correct one. Some of these are just for fun, but a topic can also introduce essential vocabulary that every child should possess. Many times the hidden words are centered around a topic of interest. The grids are small and have ten or fewer words to search for. To change the size of the title, select your title so a box appears around the words you typed. You will likely see a menu with many choices; look for the phrase "Flip Horizontal." Ludens When you have reversed the letters, you are ready to print the outlines onto cardstock or patterned paper. Also, set your margins to 0.5" or less. Eyes that are trained regularly to look for small details will be stronger and more effective in many situations. Improve concentration. For basic block letters, Arial Black is a font that works very well. Size is not crucial at this point because you can adjust that in the next step. If you have several words or a very long word, you may want to create separate pieces of Word Art so that you can print them as large as you need for your layout. Also, be sure to load your printer tray so you're printing on the backside of the paper. Solve puzzles daily and see your word search skills improve! Create your own custom word search worksheets! A variety of options are available including font size, font style, lowercase or uppercase letters, grid shape, word placement, and more. Ludens If your word is more than a few letters long or you want your block lettering to be larger, you may need to re-orient your document to landscape style. Select "Landscape" and click "OK" to return to your document. You can now select the font style and size that you wish to use. In fact they are rehearsing the spelling over and over in their minds as they look for the letters the word contains. A valuable and increasingly rare skill, concentration is required to successfully complete these or just about any puzzle. Best of all, use them to make learning a little more fun and engaging! luco/Getty Images There are many ways to create titles for your scrapbook pages, crafts, or classroom materials. They really do encourage the brain to stay focused. The exact steps may vary, depending on which version of the software you're using, though they are a general guide for working with the Word Art tool no matter the version. You may also need to adjust your browser's page setup (change margins, header/footer, or switch to landscape/portrait mode), then go to 'Print Preview' before printing. Enhance visual acuity. Just by searching for a word, puzzlers are learning to spell. On each page you will find a link to print the puzzle and another to print the answers. If you are a teacher, please feel free to use these word searches for kids as worksheets in the classroom. To reverse the title, there are a few options and which you use will depend on your computer and software: In the "Print" dialog box, your printer may give you the option to "Mirror" or "Reverse" the print. In some versions of Word, you can right click on the Word Art text box and choose "Format Shape." Look for the "3-D Rotation" option and type "180" in the "X Rotation" box. For older versions of Word, click on the "Format" and find the "Rotate" menu. For the most versatility, turn to your computer to design and print your own custom text. Now you can continue resizing the word to make it as large as you like. Directions Farm Animals Fall Medium Word Searches These would be good for third to fifth grade. Landscape mode works best for many puzzles. In some versions of Word, the Word Art options may open as a pop-up box. You can even make your own free printable word search puzzle! Are you taking a family vacation to the mountains and preparing for a long road trip? You can find them almost anywhere, for any theme, at any challenge level.

These free printable worksheets for kids will improve children's problem solving abilities, help them practice their reading skills, writing skills, and improve their vocabulary. The exercises are a fun combination of word games, problem solving tests, and science exercises. Alpha / ' æ 1 f a / (uppercase A, lowercase a; Ancient Greek: ἀλφά, alpha, or Greek: ἄλφα, romanized: álfa) is the first letter of the Greek alphabet. In the system of Greek numerals, it has a value of one. Alpha is derived from the Phoenician letter aleph, which is the West Semitic word for "ox". Letters that arose from alpha include the Latin letter A and the Cyrillic letter А
